

Architectural floor plan showing dimensions and annotations. Key dimensions include overall lengths of 391 and 315, and widths of 151 and 166. Numerous smaller dimensions define the internal structure. Annotations specify pipe types and diameters (e.g., 1 L19/D/150, 4 L19/D/180) and concrete slabs (e.g., 'zamurowanie gazobeton 8 cm', 'zamurowanie gazobeton 12 cm'). The plan is oriented with a dashed line indicating a section cut.

Architectural floor plan of a building with detailed dimensions and annotations. The plan shows a complex layout with multiple rooms and corridors. Key dimensions include overall lengths of 189m and 391m, and widths of 100m and 155m. Annotations specify pipe types and diameters, such as "1 L19/D/150" and "4 L19/D/180". There are also notes about gas concrete ("gazobeton") and concrete ("beton") structures. The plan includes a north arrow and a scale bar.
